STAINLESS STEEL ACCESSORIES
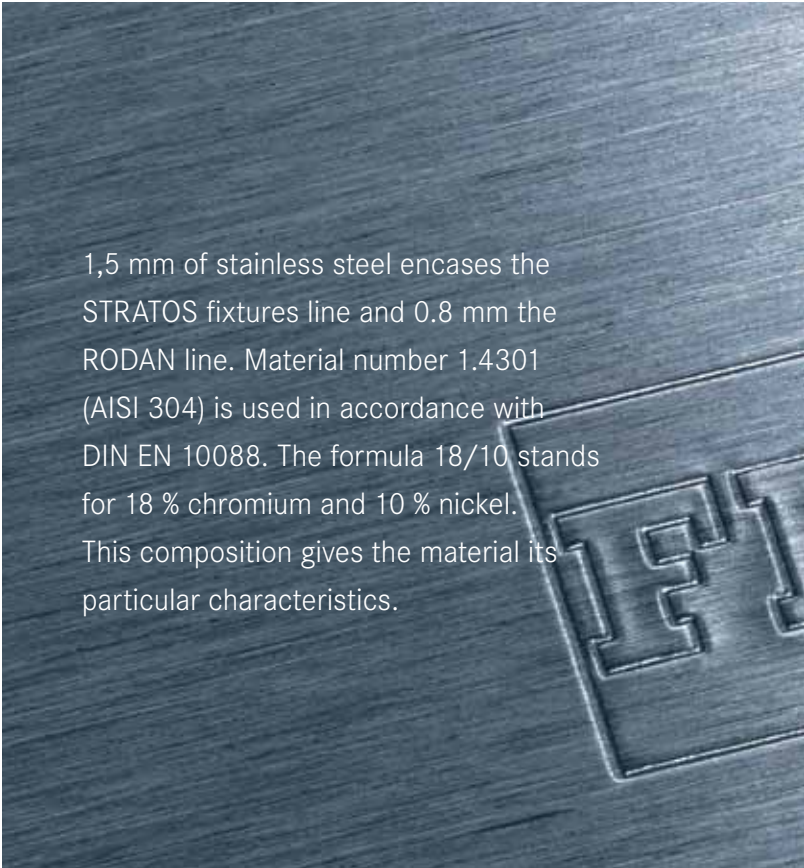

RODAN - STRATOS

Make it wonderful

FRANKE

1,5

1,5 mm of stainless steel encases the STRATOS fixtures line and 0.8 mm the RODAN line. Material number 1.4301 (AISI 304) is used in accordance with DIN EN 10088. The formula 18/10 stands for 18 % chromium and 10 % nickel. This composition gives the material its particular characteristics.
HIGH-QUALITY MATERIAL

The use of stainless steel as the material of first choice for products in public and semi-public washrooms has become today's standard for good reasons. This material is robust and, easy to maintain, and therefore is very durable which makes the products economical over the life time of the building. Sanitary fixtures that inhibit vandalism and are easy to clean help building operators to keep service and maintenance costs to a minimum.

Stainless steel is not only resistant to moisture and most acids, it also stands out due to its hardness, durability, high tolerance of heat and cold, and hygienic characteristics. Dirt and oil can easily be washed from the smooth, pore-free surface. Scratches and gouges on faceplates loose their sharp edges quickly and blend in to the surface.

"Stainless steels contain at least 10.5% chromium (Cr) and no more than 1.2% carbon (C). They form a self-regenerating surface layer (passive layer) that gives the material its resistance to corrosion, thereby ensuring significantly improved characteristics compared to unalloyed steels. Franke uses steels with a higher chromium content and nickel as an additional alloy component for its sanitary fixtures. This combination further increases resistance to corrosion."

Source: Yasar Renkci, dipl. engineer metallurgy TU, Franke

HYGIENIC MATERIAL

Practical experience shows that using high-quality materials reduces the staining of products that helps to maintain the appearance of heavily used washrooms. Wash stations and accessories take on a hygienic atmosphere. Thanks to its durable and hygienic characteristics, stainless steel provides clean and, safe products for public washrooms.

Brushes with natural or synthetic bristles, textiles made of chemical or natural fibres, microfibre cloths, non-woven plastic textiles, natural leather, sponge cloths, sponges, high-pressure cleaners, steam cleaners, etc. toothpaste, household cleaners, window cleaners and natural cleaning agents such as vinegar water (20/80) are well suited for removing heavier stains.

RECESSED OR WALL MOUNTING?
THE CHOICE IS YOURS

With wall-mount and recess-mount models, Franke products permit the greatest flexibility possible in washroom fixtures. Prevention of vandalism, cleaning efficiency and sustainability are increasingly discussed and requested for new sanitary rooms or for refurbishment in public, semi-public and commercial spaces.

Recessed mounting models:
In addition to prominent product characteristics, there are other aspects to recess-mounted models: Flush mounting offers a reduced surface for wilful destruction and provides a space-saving solution in tight wash station areas and restrooms. Recessed mounting also minimizes cleaning time. An integrated mounting frame greatly simplifies the fitting to both drywall and solid construction frames.

Wall mounting models:
Special wall mounting brackets enable the installer to complete the installation quickly and securely. The RODAN line's universal hole patterns ensure great installation flexibility, especially when retrofitting the products.
ONE SYSTEM - ONE PARTNER

Franke Water Systems offers the possibility of custom combinations of state-of-the-art valve technology and timelessly elegant fixtures made of stainless steel and Miranit. The resulting solutions redefine both the design and operation of sanitary facilities.

WASHROOM: paper towel dispensers/waste bins, sensor flush valves, soap dispensers, self-closing taps, 3-person recessed wash basin

TOILET CABINES/URINAL CABINES: urinals, urinal divider, urinal flush valves, hook, toilet roll holder, toilet brush and brush holder, toilet with seat, flush plate

HANDICAP-ACCESSIBLE TOILET CABINE: paper towel dispenser, waste bin, tilted mirror, wall-mounted grab bar, single wash basin, sensor operated tap, soap dispenser, side-mounted hand rail 135°, handicap-accessible toilet with seat, fold-up grab bar with flush actuator

Sample washroom: equipped with RODAN recess-mounted products, MIRANIT multiple wash basin, self-closing taps, urinal flush valves, and urinals by Franke!

37 PRODUCTS

... that's what you'll find in the RODAN sanitary line. With 100 years of experience in stainless steel, Franke Water Systems delivers coordinated solutions for public, semi-public and commercial sanitary facilities. Functional, high-quality, hygienic products offer professionals the appropriate solution for designing washrooms.

EXPERIENCE THE ADVANTAGES
The timeless design of RODAN stainless steel fixtures with their angular side profiles lends itself to the contemporary decor of heavily frequented washrooms and restrooms. These accessories open to planners and operators the possibility of economical, aesthetic design of customized washroom design.

Sanitary Equipment RODAN

RODAN Soap dispenser

for wall mounting, stainless steel, surface satin finished, material thickness 0.8 mm, flat front cover, cylinder lock with Franke standard key, suitable for liquid soaps and lotions, 1 litre soap tank, push button on front, including stainless steel screws and dowels.

200 x 140 x 85 mm (W x H x D)

RODX619   2000090068

RODAN Soap dispenser

for recessed mounting, stainless steel, surface satin finished, material thickness 0.8 mm, folded front cover, cylinder lock with Franke standard key, suitable for liquid soaps and lotions, 1 liter soap tank, push button on front, including stainless steel screws and dowels.

241 x 243 x 86 mm (W x H x D)

RODX619E   2000090069

RODAN Soap dispenser

for wall mounting, stainless steel, surface satin finished, material thickness 0.8 mm, flat front cover, cylinder lock with Franke standard key, suitable for liquid soaps and lotions, 0.8 litre soap tank, plastic dispensing handle, including stainless steel screws and dowels.

116 x 321 x 143 mm (W x H x D)

RODX618   2000090067

RODAN Soap dispenser

for recessed mounting, stainless steel, surface satin finished, material thickness 0.8 mm, folded front cover, cylinder lock with Franke standard key, suitable for liquid soaps and lotions, 0.8 liter soap tank, lever to pull, including stainless steel screws and dowels.

154 x 463 x 143 mm (W x H x D)

RODX618E   2000090066

| VIEW	TYPE / MODEL	ITEM-NUMBER

RODAN Foam soap dispenser

for wall mounting, stainless steel, surface satin finished, material thickness 0.8 mm, cylinder lock with Franke standard key, inspection windows on sides, suitable for Franke foam soap, stainless steel pull lever, including stainless steel screws and dowels.

116 x 326 x 135 mm (W x H x D)

RODX616   2000101222

RODAN Touch-free soap and disinfectant dispenser

for wall mounting, stainless steel, surface satin finished, material thickness 0.8 mm, flat front cover, cylinder lock with Franke standard key, infrared sensor for non-touch operation, LED indicates low-battery status, uses 6 x 1.5V (= 9V) AA alkaline batteries, suitable for liquid soaps, lotions and antiseptic soaps, 0.8-liter soap tank, dispenses 0.6 to 1.1 ml depending on soap, including stainless steel screws and dowels.
120 x 296 x 107 mm (W x H x D)

RODX625   2000090070

complementary: Dispending tube for the use with alcohol based disinfection soap.
EACCS055   2000103333

Soap dispenser

for table top mounting into worktops, with max. 45 mm thickness, high polished chromated brass, requires 22 mm drilling hole, 1/2" thread, spout not movable, spout length 140 mm, suitable for liquid soaps and lotions, 1 liter soap tank with membrane for pressure balance, filled from above.

44 x 85 x 162 mm (W x H x D)

**SD80**   2000056721

Soap dispenser

for wall mounting and re-filling from serviceroom behind the wall, high polished chromated brass, requires 18 mm drilling hole, 3/8" thread, spout not movable, suitable for liquid soaps and lotions, without soap tank (can be directly connected to soap can), for filling from behind the wall.
50 x 50 x 140 mm (W x H x D)

Sample washroom: equipped with STRATOS recess-mounted products, Miranit multiple wash basin, self-closing taps, flush valves, and urinals by Franke!
Surface with InoxPlus technology

30 PRODUCTS

... make up the well-known STRATOS. The front surfaces of these products are being refined with the proven InoxPlus technology. In this process, nanoparticles interlock with the molecules of the metal surface and nestle closely against microscopic imperfections. The resulting tight structure makes fingerprints almost invisible. The washroom stays clean longer, and cleaning is significantly easier.

YOU CAN RELY ON PROVEN DESIGN
The InoxPlus surface refinement was first used in mass production in 2004 with the high-end Franke XINOX line. In recent years, the technology has proven its value and enjoys great popularity in hotels, administration buildings and even sports arenas worldwide.

         1 surface-refinement process yields convenient cleaning
       1.5 mm durable stainless steel front
 1,250,000 tested soap pump operations without loss of function

STRATOS Touch free electronic warm air hand dryer

for wall mounting, stainless steel, surface satin finished, front with InoxPlus surface refinement for the reduction of finger marks and better cleaning characteristics (easy to clean), material thickness 1.5 mm, curved front cover, Infrared sensor activity for non-touch operation, sensor range adjustable from 5 to 33 cm, automatic power shut-off after 60 seconds, due to the extreme high, adjustable air velocity the drying time is shortened strongly, cable and plug not included.

300 x 305 x 197 mm (W x H x D)

|	
Connection voltage: 230 V, 50 Hz	Total power: 1500 W
Heater: 800 W	Motor: 700 W
Air volume: 120 m³/h	Air velocity: 75-110 m/s

STRX210   2000057203

STRATOS Touch free electronic warm air hand dryer

for wall mounting, stainless steel, surface satin finished, front with InoxPlus surface refinement for the reduction of finger marks and better cleaning characteristics (easy to clean), material thickness 1.5 mm, curved front cover, infra-red sensor activity for non-touch operation, adjustable warm air temperature, sensor range adjustable from 10 to 25 cm, automatic power shut-off after 60 seconds, adjustable air velocity allows to shorten the drying time considerably, cable and plug not included.

156 x 267 x 130 mm (W x H x D)

|	
Connection voltage: 230-240 V, 50-60 Hz	Total power: 500 W
Heater: 1000 W	Motor: 500 W
Air volume: 80 m³/h	Air velocity: 95-115 m/s
